

## Network Relations Officer

**Type de fonction:** Indépendant - Indépendant      **Location:** Brugge  
**Durée:** long term      **Référence:** 202109061

### Définition:

For our customer in telecom business, we are looking for a Network Relations Officer.

This person is responsible for managing all parties in the project of designing, managing & maintaining the cable network.

He/she follows-up of bigger scale projects in his/her region.

### Required Responsibilities:

- Represents the first line of contact between our Customer and external companies such as cities & communes, project developers and other utility companies.
- Leading your projects during the work preparation and execution phase to ensure that the right priority is defined.
- Understands the plan, able to analyse the impact of the works and consequently design an economical and long-term solution.
- Has got good negotiation skills and assertive enough to defend the Customers viewpoints & interests.
- Understands the advantage and drawbacks of works in synergy.
- Follows-up with the contractor's work (internal or external).
- Responsible for documenting correctly and precisely before, during and after the works to ensure documentation is always up to date.
- Gives training to his colleagues.

### Exigences:

#### Degree & Experience:

- Bachelor degree (IT, Surveying, geography or similar)
- Experience in the telecom world
- Previous experience in road works and/or utility works is beneficial

#### Technical skills:

- Good knowledge of AutoCad, QGIS or similar
- Good knowledge of MS Office
- Ability to negotiate between different internal & external parties
- Strong interest and/or experience in the telecom world
- Ability to approach a technical issue with an analytical mind

#### Attitudes/Behavior:

- Able to work independently and organize and prioritize your work
- Fluent and professional communication skills
- Flexible and stress resistant
- Able to stay positive and constructive under difficult circumstances
