

Java Developer

Soort functie: Freelancer en vaste medewerker **Locatie:** Various
Duur: Longterm **Referentie:** 202109160

Omschrijving:

EXPERIENCED JAVA DEVELOPER

YOUR MISSION

In the role of Java developer at Anankei you will be responsible for the design, development and maintenance of various web applications. Projects include pure custom development in Java as well as complex sites (with a high visibility). You'll work in team alongside other passionate java developers dedicated to delivering high quality results.

YOUR RESPONSIBILITIES

- Contribute in the design and outlining of Java solutions (with the analyst and /or architect)
- Deliver superb Java web applications according to agreed planning and budget
- Develop qualitative sites that exceed all customers' expectations
- Add value to the sales cycle by giving input to your commercial colleagues (presales)
- Add constantly to the Java competency within Anankei
- Support the project manager during the estimation process
- Train customers and users

Vereisten:

YOUR EXPERIENCE

- Higher education in IT (minimum Bachelor level)
- A broad interest in developing web sites and web applications
- General best practices and design practices
- Familiar with Agile methodology such as Scrum; TDD
- Good knowledge of Java Spring MVC
- Experienced in JPA/Hibernate, Maven, GIT, SVN Jenkins
- Experience with HTML5, CSS frameworks (Bootstrap, ...), Javascript frameworks (jQuery, Angular JS, React JS...) is an added value.

OUR OFFER

- An attractive and flexible salary package (including company car, smartphone, insurances, ...)
- Dynamic, open, competent and established working environment offering job security
- Working on challenging projects with a high visibility
- Sharpening your (technical) skills in challenging assignments
- Formal and on-the-job training; we encourage you to obtain official certification(s)
- A flexible time schedule with possibility to work from home at least one day per week
- Warm and open company culture, supported by an international group
